Re: VITA PRODUCTS

Dear Don:

This letter is to thank you for the wonderful work your company completed at two of our buildings.

As you recall we had a truck fire in the parking lot of the Downtown Chapel which burned half of one of our trees. The immediate application of VITA PRODUCTS saved this tree. The estimated replacement cost would have been close to \$10,000.00. Also, earlier this spring the application of the VITA PRODUCTS to the 32 Ash trees at this facility saved all but one who were affected by the Ash Borer Beetle. Estimated savings, \$320,000.00.

At our Vernon Chapel we had 23 Scotch pine trees, 12 inch to 24 inch in diameter, affected by Pine Bark Beetle. Due to the application of VITA PRODUCTS, we lost only five of the trees. Compared to 23 possible losses this is been a wonderful blessing to us. Estimated savings, \$180,000.00.

We at the Show Low Facilities Management Group are grateful to you and to this product that you have applied on our behalf. Thank you so much. May the Lord continue to bless you and your family.

With sincere thanks,

W. Shaun Davis
Facilities Manager
