Jan

Dear Kay,

I just received my package of Vita Derma Lotion. I am so relieved to know that I can keep a good supply on hand through you, until our local wholesalers start carrying it.

Previous to using Vita Derma my hands were cracked wide open & bleeding in several places. Every movement of my hand was painful. My hands could never heal since I was constantly exposing them at work to whatever it was that I was allergic to. At one point I was wearing expensive surgical gloves that were hot & uncomfortable.

For the eye of the Lord is your strength.

Nehemiah 8:30
